DETAILED ACTION

The Examiner and Art Unit handling this Application have changed. Please direct further correspondence to Richard Schnizer, Art Unit 1635, whose contact information is presented at the end of this Action.

An amendment was received and entered on 9/26/06.

Claims 9-11 and 21-23 were canceled.

Claims 7, 8, 19, and 20 remain pending and are under consideration.

Election/Restrictions

Claims 7, 8, 19, and 20 are generic to the following disclosed patentably distinct species: compounds of the following structures:

Art Unit: 1635

The species are independent or distinct because they are directed to different classes of disulfides requiring non-overlapping searches of chemical structures.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this

Art Unit: 1635

requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
